## SPED Meeting Notes

10/19/10

- Thank you for keeping issues and concerns alive by continually speaking up for students.
- RTI: What comes first: RTI or Math?  
Would also like a job description.  
Some SLP's are also affected by RTI. If you are one of them, please respond to the RTI questions sent previously.  
It used to be that goals drove placement and now it is the other way around. We are being forced to fit into a "one size fits all."

- Voyager Passport is a supplement + core, but it's being used as core.  
grades are not supposed to be given for Voyager.
- PLCs: 1 staff mtg per month during PLC time.
- Goals & Obj.: Smartboard cannot be a Technology goal unless tchr want that.
- Medical procedures: last summer the appellate court ruled that tchrs should not administer certain meds to students, but Supreme Court over turned that. It is still going on in the court system. Nurses do not think tchrs should be doing it, either. They can have licensing issues for overseeing untrained persons.

- Fed. gov't funds 17% to SPED programs and the El Dorado teacher district provides the rest.  
15% of that 17% can be put towards 17%.
